Conditional Approval for the Magnesium Sulfonate Corrosion Inhibitor Sunricho OM 12

Dear Ladies and Gentlemen,

based on your material data sheet, material data safety sheet and our own investigation related to the Inhibitor test procedure a conditional approval is granted for the inhibitor release of Sunricho OM 12. A full release will be given if within one year no irregularities occurs. Siemens keeps the right to remove the conditional release if unexpected issues occurs. The acceptance does not relieve the manufacturer of his liability for unacceptable concealed inhibitor issues detected after the acceptance.
